

GENEVA EMOTIONAL MUSIC SCALES (GEMS) AGREEMENT OF USE FORM

To be granted permission to use the GEMS, a short description of the project involving the GEMS must be submitted together with this form (ca. 150 words). The description should include information about: a) the aims of the study, b) sample and methods, c) anticipated implications of results, and d) the preferred GEMS version (GEMS-45; GEMS-25; GEMS-9).

Once permission is granted, researchers using the GEMS provided by the *Personality, Emotion and Music Laboratory* (free of charge) agree to the following terms of use:

- 1) The GEMS is used for research purposes only. Any commercial use of the GEMS, either by direct application or through incorporation in any automated process, is excluded.
- 2) No copies of the GEMS scale or its contents will be made or distributed.
- 3) In cases where reproduction of the scale is unavoidable, such as for data collection purposes, it is mandatory that the Copyright Notice, printed at the bottom of the GEMS rating form, be reproduced in clear and legible print, regardless of whether the administration occurs online or offline.
- 4) Any of the GEMS scales must be cited in the following way in any publication using the collected data:
Zentner, M., Grandjean, D., & Scherer, K. (2008). Emotions evoked by the sound of music: Characterization, classification, and measurement. *Emotion*, 8, 494-521.
- 5) If the project involves a translation of the scale, the project description must state into which language it is being translated and a special permission for the translation obtained. Further, the translation will be made available to the *Personality, Emotion and Music Laboratory* upon completion of the study.
- 6) Failure to comply with any of the above terms will result in revocation of permission to use the GEMS.

I hereby accept the conditions of use:
